

XK870F

VSM CERAMICS

Grain type	Ceramic / Aluminium oxide
Bonding	Full-resin bonded
Colour	Red
Backing	F-Cotton
Flexibility	Very flexible
Production width	1,480 mm (60-120) 1,050mm (P150-P400)

Material

Features

Ceramic grain abrasive with self-sharpening effect on a very flexible cloth backing: offers impressive results when working on contoured workpieces with very hard surfaces such as non-ferrous metals, stainless steels or superalloys with aggressive cut and a very long service life. The additional TOP SIZE layer improves stock removal while reducing the temperature in the grinding zone.

Grit sizes:¹⁾

Benefits

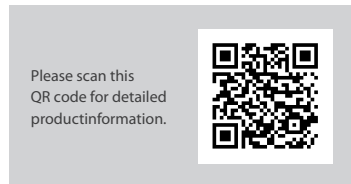

- > Self-sharpening effect constantly produces new sharp edges and thus enables much higher stock removal rates
- > The additional grinding active layer VSM TOP SIZE ensures a cool cut and an extended service life
- > High wear resistance
- > Ideal for contour grinding thanks to extremely flexible cotton backing

Wear pattern of the grain

The microcrystalline structure of the **VSM CERAMICS** series enables a much more subtle breaking down of the grain and constantly produces new sharp edges.
